

What is the number one reason people call their plumber? Nasty, clogged drains!

Kiss nasty, expensive drain clogs goodbye forever...

GUARANTEED...

with Neptune Plumbing's clog-busting Drain Maid Maintenance Program
featuring the power of BioSmart®.

The drains in your home are a collection point for muck and gunk, including grease, oil, food, even things like hair gel that sticks to the inside of your pipes and slows down the wastewater trying to leave your home. These materials can build up and cause slow, smelly drains or worse, clogged drains that are expensive to have cleaned.

Take this quiz: Do you experience...

- The constant mess from that slow or backed up drain in the kitchen sink?
- Your bathtub or shower threatening to overflow while you're showering, leaving a nasty ring after it finally drains away?
- Having to use your plunger on that unreliable toilet in the guest bathroom?
This can be embarrassing!
- Having your septic system back up, creating your worst nightmare?
- Smelling that stinky skunk-like odour from that one particular drain?

If so, you need a maid. The Drain Maid™ featuring BioSmart® is a natural drain and septic system treatment that, when applied regularly, keeps your drains running smoothly so you don't have to worry about messy, inconvenient, slow running or stopped-up drains and toilets. BioSmart® contains natural Biologicals (friendly bacteria) that naturally eat away at the gunky buildup in your pipes and drains. And this natural bacteria won't harm your plumbing.

Drain Maid™ featuring BioSmart® cleans drains and keeps them free flowing by unleashing naturally-occurring bacteria that thrive on the grease, oil, and organics that are found in every home's drains.

Clog Free Guarantee!

You can't lose! We're so confident in the power of BioSmart® that if you experience a clog after having your drain cleaned by Neptune Plumbing, and after using BioSmart® every month for one year, we'll provide a free drain cleaning on the same drain that was originally serviced.

Guarantee applies for naturally occurring clogs. Excludes major blockages caused by tree roots in drains or other foreign objects.
